SUMMARY

Aspiring UI/UX Developer
with a strong foundation in full-stack and Android development. Passionate about crafting intuitive, user-centric digital experiences. Skilled in designing efficient, visually engaging interfaces and seamless user flows. Eager to explore emerging technologies, collaborate with innovative teams, and contribute to meaningful, real-world projects.

PROJECTS

[SAHAYAK](#) (Sep 2024 - Jan 2025)
The Sahayak Disaster Detection and Management System is a cutting-edge platform designed to mitigate the impact of disasters through the integration of advanced technology and robust management strategies. This system offers real-time disaster detection, comprehensive planning tools, and efficient communication channels to connect individuals with rescue organizations. By leveraging deep learning models with 98% accuracy, Sahayak ensures prompt identification of disasters and equips users with actionable tools for immediate response. Its user-centric design and reliable features make it an indispensable asset for disaster resilience.

[CineIno: EntertainmentAPP](#) (Nov 2022 – Dec 2022)
A sleek and user-friendly Android app that provides reviews and detailed information about the latest movies. Users can explore trending films, read summaries and ratings, and stay updated with the newest releases—all in one place.

[Voucher Swap](#) (Jan 2025 – Feb 2025)
VoucherSwap is a smart app that lets you buy, sell, and redeem gift vouchers easily. Turn your unused vouchers into value or grab deals from others at a lower price. Earn points by playing fun games and use those points to redeem vouchers. Simple, secure, and rewarding – make every voucher count with VoucherSwap
